 **Matrix RF**™

the beauty of fractional skin resurfacing

Over time, our skin's youthful appearance and texture is affected by cumulative affects of collagen and moisture loss, sun exposure, acne and more.

Fractional skin resurfacing helps restore your skin's beauty by treating mild to moderate wrinkles, red and brown spots, and textural irregularities.

safe & effective

longer lasting results

smooth out the lines of time

Matrix RF™ fractional skin resurfacing enables you to achieve a more youthful appearance.

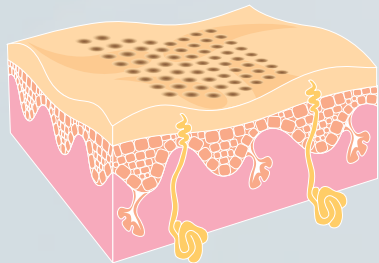

We're proud to offer fractional technology, which has been shown to effectively treat mild to moderate wrinkles, red and brown spots, and textural irregularities. This is truly the next generation of safe and effective fractional technology.

Look as young as you feel. Schedule a personal consultation today!

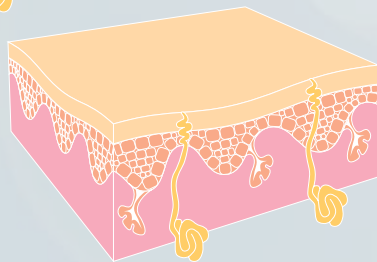

Matrix RF fractional skin resurfacing

Refresh the appearance of areas around your cheeks and eyes. Treat brown, red and pink spots.

Smooth lines around your nose and mouth. Reduce the appearance of wrinkles and textural irregularities.

Energy is applied to the skin in matrix spots. The healthy skin around the spots accelerates the healing process.

Skin after fractional skin resurfacing.

How does Matrix RF fractional skin resurfacing work?

Frequency energy is precisely directed to tiny matrix spots. The healthy skin around the spots accelerates the healing process of the skin. Post treatment, you may notice increased levels of beneficial collagen and new healthy skin cells are produced. Mild to moderate wrinkles and superficial skin discolorations are reduced, and the texture of your skin becomes more smooth and elastic.

Is fractional skin resurfacing right for me?

Treatment is a safe and effective solution for most skin types.

When can I expect to see results?

Typical treatment protocol is 3 treatments, 4-6 weeks apart. The total number of required treatment sessions depends on your skin's condition.

Does it hurt?

During treatment, many patients feel a warm, prickly sensation as energy enters their skin. After treatment a pink or red "sunburn" appearance and feeling is also common. Topical anesthetic ointments and cooling are used to reduce unpleasant feelings during treatment.

How much does it cost?

Treatment costs vary. Schedule a personalized consultation for more details.
